Taking care of you

Alpha

THE FIRST
DIODE LASER & 3D IPL
COMBINATION SYSTEM

POWERFUL TECHNOLOGIES IN PERFECT SYNERGY

What Makes ALPHA So Unique?

Dual In-Demand Technologies Combined

Powering two powerful aesthetic technologies in one device- Diode Laser 808nm and 3D IPL. Save costs, streamline operations.

Elevate Your Clinic

Over 20+ clinical indications, expand your aesthetic offerings and thrive beyond your dreams.

Better. Faster. Stronger!

More control, more flexibility, more performance. The Alpha is designed to give you more control features that make it easy to tailor your treatment to each patient.

Read Your Clients

Meet Milo, your Melanin Guide. Say goodbye to guesswork with our user-friendly digital diagnostic, providing accurate skin type readings for a personalized experience.

ENDLESS POSSIBILITIES...

POWER MOTION

3RD GENERATION HAIR REMOVAL TECHNOLOGY!

Revolutionize your hair removal experience with PowerMotion™. A pioneering technology based on Fourier's law of thermal conductivity designed to elevate treatment outcomes, speed, and comfort.

Sensational Results

Proven 12% better results in clinical studies, POWER-MOTION™ maximizes heat diffusion for superior hair removal outcomes, offering an advanced solution for your patients.

Optimal Comfort

Revolutionary hair removal treatments with our cutting-edge technology. Featuring Golden-Touch contact cooling for a more comfortable and pleasant treatment experience in every session.

Large Spot Size-Faster Treatments

The first technology to use high fluence pulses delivered continuously with a single pass treatment for swift and efficient delivering up to 3x faster results on all body areas.

Tailored Read

Prioritize patients with custom protocols. Utilizing five treatment modes, and a cutting-edge skin diagnostic device for precise, effective, and comfortable tailored treatments.

DID YOU KNOW?!

When it comes to Hair Removal, **Heat Diffusion** is crucial for achieving optimal results. Based on Fourier's law of thermal conductivity, POWER-MOTION™ increases the amount of energy diffused between the hair follicle and the dermal papilla. The POWER-MOTION™ mode (figure 1) enhances heat diffusion, improving the hair removal process compared to the Single mode "stamping" (figure 2).

EVER-GLOWING SKIN, NOW AND IN THE FUTURE

The hottest trend in non-invasive aesthetic treatments - Tight & Bright. A foundational treatment, featuring a new holistic approach designed to improve skin appearance and minimize signs of aging with zero downtime.

1 Elevating Comfort, Amplifying Results!

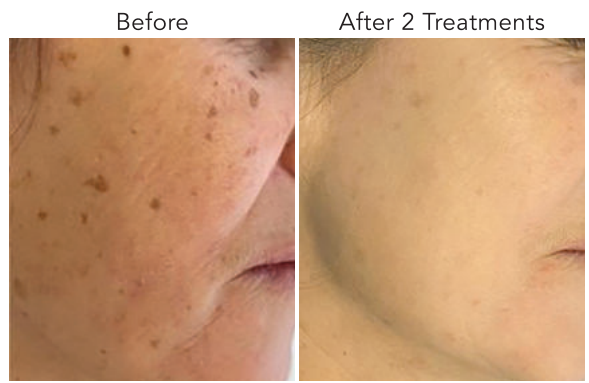

Experience unparalleled results with our innovative Double-Pass approach, ensuring not only the outcomes you desire but also keeping your patients delighted and at ease throughout the process.

2 Perfect Texture & even skin tone

Tight & Bright is a unique 30 mins treatment featuring a technological breakthrough for simultaneous improvement in skin tone and firmness, the two most common skin concerns.

3 Redefine Aesthetic Treatment

Unveil the magic of our corrective and preventative treatment, providing a dual impact by eliminating visible pigmentation and minimizing the risk of future lesions.

Milo- Perfect Match

Introducing MILO, a digital skin diagnostics device that takes the guesswork out of parameters setting, with 3 easy steps. Using multi wavelengths technology, the Milo measures melanin concentration levels in each treatment area and provides the practitioner with safe and effective treatment protocol recommendations. It redefines excellence in aesthetic treatments through personalized care that ensures precision, effectiveness, and comfort tailored to each patient and treatment stage.

EXCELLENCE REDEFINED BY 3D IPL

Tailoring treatments to your patients' unique needs is crucial. With 3D IPL technology, you gain enhanced control over treatment parameters, ensuring a more precise, personalized, and comfortable experience that delivers superior results.

3Dimensions of Control

We've elevated control over parameters, empowering you with the ability to manage energy, pulse duration, and contact cooling intensity. This ensures maximum precision in every pulse, providing an unparalleled level of customization for optimal results.

Glowing Range of Treatments!

Elevate your clinic's offerings with our 3D IPL technology, covering 20+ clinical indications. Deliver versatile and effective treatments, tailored to your client's unique skin needs.

Pushing the Boundary of Excellence

Experience enhanced efficiency in aesthetic treatments with 3D IPL technology. Offering up to 45J/cm² fluence, 9 pulses per second, and two spot size options. It ensures a superior approach to various skin treatments.

Personalize Treatment Strategy

Optimal outcomes stem from personalized treatments. Featuring MILO, a digital skin diagnostic device that simplifies parameter setting based on individual skin type. Elevate your patient experience and safety with MILO.

ABOUT US

Since 2008, we've grown into a global leader in medical aesthetic devices, driven by seasoned professionals and extensive R&D capabilities. Our mission is to bring groundbreaking technological solutions to the market, with meticulously crafted devices setting refined benchmarks in quality, innovation, and safety.

Your **success** is our **success**

FormaTK supports you every step of the way.

We aim for your business to thrive alongside FormaTK, which is why we've crafted a comprehensive support package. This assistance starts from our initial conversation and remains steadfast as your business starts reaping the rewards. We guarantee you access to all necessary training and provide the latest clinical materials and marketing materials.

1

Sharing the Knowledge

stay ahead with the latest clinical materials through comprehensive training webinars and publications.

2

Integrated Marketing Resources

Enhance your brand with engaging marketing content designed to attract and captivate new audiences. A variety of materials within your reach, including eye-catching posts, enticing brochures, compelling newsletters, and dynamic videos.

3

Dedicated clinical Support Team

We aim for your thriving success, which is why our dedicated clinical support team is always ready to address any inquiries you may have. With 24/7 availability, we offers comprehensive and professional answers to all your professional queries, delivered by experienced doctors.

4

Technical Support Services

We offer a strong support system to address any technical issues promptly, providing you with peace of mind and allowing your business to thrive.

5

Online Visibility

Transform online interactions into positive experiences with FormaTK's user-friendly website, unlocking your business's full marketing potential.
